RE: Letter of Recommendation

To Whom It May Concern:

On March 15, 1995, the Judson I.S.D. Board of Trustees voted unanimously to award G.W. Mitchell & Sons Inc. a professional services contract for construction of the New Judson I.S.D., Woodlake Hills Middle School Project as bid for \$13,078,350.00. The 175,000 sq ft. facility is located in San Antonio, TX and will contain regular and special classrooms, administrative offices, a full service kitchen, cafetorium, physical education facilities, athletic fields and parking. It will accommodate a 1500 student capacity including sixth, seventh, and eight grades.

Currently, G.W. Mitchell & Sons Inc. is entering the final phase of construction for this project and their performance has been exemplary and has exceeded the District's expectations. From the start of this project we have found G.W. Mitchell & Sons Inc. to be very professional, efficient, and competent contractors. They have maintained through the course of construction, constant communications with the owner and they have been most cooperative in working with school district staff during the construction phase. The Project Manager Mr. Bill Mitchell, and the Project Superintendent Mr. Stan Motz have provided excellent project supervision and administration and were always available to assist the owner when necessary. They have quickly resolved any questions that have arisen and responded to the owner's needs in a timely fashion.

The Judson I.S.D. is looking forward to the opening of our New Middle School and we acknowledge our appreciation of the contractor's efforts in providing a quality construction project. The General Contracting firm of G.W. Mitchell & Sons Inc. have the diligence and professionalism to effectively serve anyone contemplating a construction project. We highly recommend them and encourage you to seriously consider them for your new building project.

Sincerely,
