G. W. Mitchell & Sons, Inc.
P.O. Box 12683
San Antonio, TX 78212

Dear Bill:

Clear Channel Communications negotiated a contract with G.W. Mitchell & Sons, Inc. to construct our new corporate headquarters in San Antonio. This project, built on a fast track basis, consists of a 55,000 sf concrete frame building with cut stone and glass exteriors, featuring 35,000 sf of underground parking, rooftop garden plazas and high-end interior finishes.

G. W. Mitchell was very helpful in working closely with our needs, as well as, the Architect's design team to bring the project to fruition. A great deal of coordination and commitment were displayed by the entire Mitchell organization including project managers Bill Mitchell and Allen Sykes, as well as, superintendents Herb Garcia and Ron Moczygemba. The entire team worked closely with us to insure a smooth transition from our old headquarters to the new.

We continue to enjoy the use of our new Corporate Headquarters and highly recommend your company for future projects.

Sincerely,

Mark P. Mays
