To Whom It May Concern:

Re: Rayburn Middle School  
Additions and Renovations

G. W. Mitchell Construction has completed several phases of Additions and Renovations at Rayburn Middle School for Northside Independent School District. The project includes work throughout the campus including the Administration Area, Classrooms, HVAC Upgrades, Electrical Upgrades and Fire Alarm Upgrades. The new additions are a new Cafetorium/Kitchen/Gymnasium Building and a new Two Story Classroom Building totaling approximately 30,000 s.f. The project also includes site improvements to the parking lot, campus courtyard and handicap accessibility.

The project had many phases of work with different completion timelines. The work had to be executed and completed while the campus was occupied. Coordination, safety and meeting construction schedules were of utmost importance. For these reasons the District selected G.W. Mitchell Construction to be the Construction Manger.

I would recommend G. W. Mitchell Construction for any similar type project and feel that they are very capable in performing work in a timely and efficient manner.

Please contact me if I can be of any further assistance.

Sincerely,
